IV. Old Business: Nothing was carried over.

V. New Business:

A. Concerns of the committee and future challenges:

- School money for SRO - Was this set for a 50 county/50 school?
No minutes nor any documentation found in reference to this. Commissioners do not recall a vote in regard to a 50 county/50 school. Mayor Chambers is going to discuss with Mr. Carman in reference to this.
- Mr. Walsh concerned with the pin mapping regarding 911 calls dispatching to surrounding counties if calling from a cellular device. Believes it would benefit the community to let them know they may want to specify they are in Trousdale County when giving the address, in example an advertisement in the paper or on the radio station.
- Mr. Whittaker in question to a 2-hour minimum in regard to part time staff for the sheriff's department. Is this in the personnel policy or can it be added. Mayor will review the personnel policy to see if it is specific.

VI. Adjourn:

Motion called by Walsh and seconded by Johnson.
